

SKU: 42192

We test all of our Type 201 stainless steel band to warrant that it meets ASTM-A666 standards including, but not limited to, chemical composition requirements of carbon, manganese, phosphorus, sulfur, silicon, chromium, nickel, tensile and break strength. Our BA206T is fully annealed.

Our Type 201 stainless steel band is produced and manufactured in the **U.S.A.**

✻ ✻ TYPE 201 MADE IN THE USA ## 6521 ## ✻ ✻

Unique quality control: Each coil of band is stamped with a 4-digit code every 12 inches referencing the test results and verifying its authenticity and compliance with ASTM standards as well as serving as a handy measurement point. This process is unique to ISO.

BA206T can be further described as:

Edging: Skived

Finish: Stainless bright or matte

Thickness: .030"

Width: 3/4"

Length: 100'

Break Strength: 2,200 Lbs. Minimum

Tensile Strength: 95,000 PSI Minimum
