

WB300 WATER FILLED BARRIER

1. Large 8" fill hole speeds filling process, Includes twist-lock plastic cap.
2. 90-degree pivoting hinge design allows the WB300 to handle curved roads and tight turns. This double wall knuckle design minimizes breakage at hinge points.
3. Built in mounting holes to secure barrier to the ground.
4. Durable HDPE plastic minimizes cracking and breaking. Available in Orange or White.
5. Includes steel connection pin that allows sections to be locked together.
6. Forklift and pallet jack through holes and recesses for easy movement and eliminates bowing when filled with water.
7. Light bracket molding with drain hole below to prevent water pooling.
8. Tamper resistant, corner offset drain plug with coarse buttress thread —screws in or out in only 2 1/2 turns.

9. Modular Steel Fence Panels
