

JACKHAMMER BITS

Made in the USA with high quality American Steel

MOIL POINT

- Comes to a single point
- Lots of breaking power.

WIDE CHISEL

- Much wider point of contact
- Gives more control over breaking direction
- Often used to pry debris away

NARROW CHISEL

- Middle ground between Moil and Wide
- Small point of contact, and still good for prying

ASPHALT CUTTER

- Often used by utility workers needing to uncover buried utilities under roads.
- Can be used to cut a line in asphalt limiting the amount of damage and repair.
- Should only be used on asphalt, it's not rated for concrete.

CLAY SPADE

- This is used for breaking up hard packed clay or soil.
- Often used to break up soil in trenches or hard to reach spots, leaving soft soil.
