

LOWPRO 23/05 ROAD PLATE

TRENCH COVER

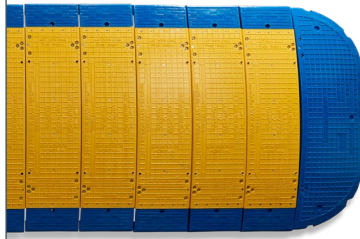

The LowPro 23/05 Road Plate is a modular system made up of individual linking units that when connected are able to span a 4ft wide trench by unlimited length. Suitable for 44 ton GVW vehicles.

COMPLIANCE CODE

HS20-44

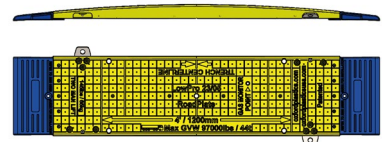

PRODUCT RANGE

LOWPRO 23/05 ROAD PLATE

Usage Benefits

- ▶ Can be easily transported and stored in the stillage (racking)
- ▶ Can be easily lifted and installed by 2 persons using EasiLift Handles, without a crane or heavy lifting equipment
- ▶ Gravity fed steel drop pins sit in the trench preventing lateral movement
- ▶ Hi-vis anti-skid surface and chamfered Flexi-Edge reduces slips and falls, providing safety in roadways at crosswalks
- ▶ Maintain quality and performance with spare parts, if necessary
- ▶ Heavy duty interlocking steel connectors allow for the trench cover to lock together to cover any length of trench
- ▶ Patented rubber Flexi-Edge dampens noise and eliminates need for cold patch
- ▶ Adhere to local DOT legislation, as this may effect the max. trench width requirements

EASILIFT HANDLES

Product No.	0730
Width	18"
Length	36"
Height	8"
Weight	71lb
Quantity / Pallet	20
Color	Yellow
