

Barricade Reflectors

The most popular of our Barricade Reflector, for work zone traffic control or permanent delineation. It has over 12 square inches of reflective sheeting and the versatility of either top or side mount placement. The added brightness gives motorists additional response time when driving through hazardous areas day and night.

- UV-stabilized polymers for long life in both work zones and permanent installations
- Barricade Reflector bases are pre-drilled for either adhesive or bolt mounting
- Typical applications include temporary and permanent concrete barriers, concrete bridge parapets and wooden guardrail posts

Specifications:

- Made from high impact engineering grade thermoplastics
- Double sided Hi-Intensity reflective sheeting
- 12 Square Inches of reflectives on each side.
