

PINNACLE EXO

MULTI-IMPACT & VOLT RATED HELMET WITH INTEGRATED EPS

ZPE02

CERTIFICATION:

ANSI/ISEA Z89.1-2014 Type 1, Class G (2,200V ac)

EN 12492:2012

- +Shock absorption capacity (cl.4.2.1)
- +Resistance to retention system (cl.4.2.3)

EN 397:2012+A1:2012

- +Shock absorption capacity at +50°C and -40°C (cl.5.1.1)
- +Penetration resistance at +50°C and -40°C (cl.5.1.2)
- +Electrical properties (cl. 5.2.3)
- +Lateral deformation (cl. 5.2.4)
- +Molten metal splash (cl.5.2.5)

EN 50365:2002 (1000Vac, 1500Vdc)

- +Proof voltage test (cl.6.3.4)
- +Withstand voltage test (cl.6.3.5)

MATERIAL: ABS Advanced Thermo Material Shell exterior, high-density EPS polystyrene.

SIZE: 54/62cm

WEIGHT: 440 grams

LIFESPAN: 10 years (+5 year shelf life)

FEATURES: Protection against electrical risk 1500Vdc. 1000Vac, Ear protector kits available on request, Full face and half face anti-scratch visors available for direct fitting, Slots for fitting cap attach ear protectors, Inner Textile padding and headband, removable and washable, Adjustable chinstrap, will not release under force of F>500N, Lamp holder clips.

ADVANCED INDUSTRIAL HEAD PROTECTION

The ZERO® Pinnacle EXO helmet range integrates high density EPS with an ABS thermo material shell for advanced industrial head protection. Ideal for construction, work at heights and abseil use.

The ZERO® Pinnacle range is easy to accessorize with easy to fit hearing protection, direct fit protective visor and lamp connection system.

HV = High Visibility

HIGH-DENSITY EPS PROTECTION SYSTEM

This product is manufactured by ZERO according to ISO9001:2008 quality system and certified to article 11B of directive 89/686/EEC, and CE 0082 by Apave or INSPEC.

To actively control the risk of suffering a traumatic brain injury from falling, it is essential that the correct head protection is worn. If you become the falling object, you must take more action to mitigate the risk of serious head injuries. This can be achieved by wearing head protection that is impact tested across multiple parts of the helmet to provide all-round protection. A multi-impact rated helmet is the only effective way to minimize the risk of serious head trauma.
